

Cloud PBX & nbn™ 100 Bundle

nbn™ Bundle Unlimited Data

Critical Information Summary: Cloud PBX & nbn™ Bundle Unlimited Data

Information about the service

Service Description

The Goodtel Cloud PBX and nbn™ 100 Bundle provides your business with a state of the art office phone and an unlimited nbn™ data service and optional 4G backup. Additional phone handsets can be added to this plan. The phones use the Internet to make and receive calls.

Hardware

You will be supplied with a minimum of 1 nbn™ ready phone and an nbn™ ready modem. The monthly plan cost includes either a Desktop or Cordless handset or a Receptionist or Power User handset. If you cancel your service the hardware must be returned to us within 30 days otherwise a non-return fee will apply. If you wish to purchase the hardware outright after 24 months a charge of \$75 per item of hardware will apply.

Key Details

This bundle plan is provided on a 24 month contract. Your nbn™ service includes unlimited nbn™ data and has typical business hour speeds of 89Mbps.

Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded.

Your nbn™ Cloud PBX phone service allows you to make and receive phone calls. The plan includes local and national calls within Australia and free calls between other Goodtel Cloud PBX phone services. Other calls and optional value added services and any other equipment are charged in addition to your Monthly Access Fee.

This service may not be suitable if you require an uninterrupted phone service with access to

000 emergency services. The service will not function in the event of a power failure. Priority assistance is not available on this service.

Standard Installation Requirements

An Internet service with a minimum of 100kbps/100kbps per concurrent call is required for a Goodtel Cloud PBX phone service to work. The nbn™ service provided in this plan is more than capable of providing the necessary minimum speeds however other activity on your local network may affect call quality. You can upgrade your nbn™ speed if you require additional bandwidth on your local network.

You are required to install the handset(s) supplied as part of your Goodtel Cloud PBX phone service bundle plan. This includes any associated cabling, configuration or your network and any routers and/or switches within your network to allow the IP handsets to work.

Installation options can be arranged at an additional charge. For more information please speak to our customer service team on 1800 114 663.

Standard connection to the nbn™ is included in this plan. Any non-standard installations may attract additional charges. If your property is deemed part of a greenfield development a \$300 charge will apply for connection to the nbn™.

For more information about different internet technologies and to determine what is right for you please see:

Additional nbn™ ready Receptionist and Power User handsets can be added to this plan for \$69 per month per handset with no upfront handset cost. Total cost over 24 months is \$1666 (inc \$10.00 delivery).

Other Information

Usage Information

You can monitor your usage at <https://myaccount-goodtel.oneplatform.com/> or by calling us on 1800 114 663

Directory Listing

If you don’t want your name, address or phone number printed in the White Pages® or any other directory product, you can opt for no directory listing.

“Instant On” & 4G Backup

Optus mobile coverage is required at your location in order to use our “Instant On” and 4G Backup facility. Optus coverage can be checked here: http://www2.optus.com.au/egmap_mob/.

“Instant On” allows you to start using this service before nbn™ is connected at the property. 4G Backup allows you to continue using this service in the event of nbn™ or network disruption in your area. Maximum data speeds available during these usage times is 12Mbps/12Mbps and up to 200Gb of data can be consumed in a calendar month.

Billing

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

IMPORTANT: Billing for your nbn™ service will commence from the day that the nbn™ activation is completed by nbn™. Please note that this is not when you plug in the modem and get online. As such we urge you to start using the service as soon as you can as charges will have already commenced.

Direct debit and email bills

All accounts with Goodtel must be setup on direct debit from either a bank account or credit card. If your account is NOT set up on direct debit your service may be suspended until a direct debit is in place. Goodtel delivers all bills via email and does not provide an option for printed bills.

Broadband Speeds

Actual speeds you will receive will vary due to a number of factors such the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded. We are unable to attain your maximum possible speeds using FTTN or nbn™ Wireless technology until you are connected.

If you are not satisfied with the broadband speeds that you can achieve on your nbn™ service we recommend letting us know as soon as possible. There may be some troubleshooting that we can recommend to improve your speeds. If this does not improve things we can move you to a lower speed plan at no cost. We will also credit the difference in plan fee for the time you were on the higher speed tier (up to a maximum of 3 months). If you are still not satisfied with the speed you can achieve you can cancel the 24-month contract without early termination penalty. We will require any supplied modem and handset to be returned to us at: Level 4, 80 Market St, South Melbourne, VIC, 3205 to avoid a hardware non-return fee.

We're here to help

If you have any questions, just call us on 1800 114 663 so we can serve you better. Or you can visit us at www.goodtel.com.au for additional information, including to access information about your usage of the service.

Complaints

If you have any concerns or complaints, you can access our complaint resolution process via the details on our website at www.goodtel.com.au/policies and clicking on ‘Complaints Handling Policy’.

You can also contact the Telecommunications Industry Ombudsman on 1800 062 058 or submit an enquiry at <http://www.tio.com.au/>

This is a summary only. Please contact us for further information or visit our website for full Terms and Conditions. Summary valid as of December 2019.
